1st position in design sprint in Samadhan Service project
“Generative AI?” by Pinar Seyhan Demirdag!
SoloLearn Inc.

Rajkumar Rawal

Enthusiast in AI, blockchain or other tech related Startup Projects | Interested in hackathons or meetups to connect with people and learn from them and vice versa | Always open towards opportunities to grow my skills |
Bāgmatī, Nepal

Summary

I love looking inside the hoods of software, opening them to understand the underlying design and principles which was used to build software to solve a particular problem. I believe the only way to develop in this modern world is to build the base of the software rock solid so that it can endure lots of changes.
